

China under Intense Censure for Global Spread of China-Wuhan Virus Pandemic

Submitted by asiaadmin2 on Sat, 04/04/2020 - 04:55

Paper No 6557

Dated 4-Nov-2020

By Dr Subhash Kapila

China is being pilloried by the global community for suppressing information on the outbreak of the China Wuhan Virus in November 2019 of letting the Wuhan Viral Epidemic assume global pandemic dimensions leading to thousands deaths the world over and opening China to charges that this suppression may be linked to Biological Warfare experiments having gone awry at the Wuhan based China's Virology Laboratories clandestinely engaged in BCW experiments.

China cannot deny that in terms of circumstantial evidence which has piled up in the last two months since the Wuhan Virus19 Pandemic assumed global proportions, China by its own conduct of suppression of the Wuhan Virus19 has opened itself up to the above allegations. Its subsequent conduct has also led to global charges that China is fudging up both the facts and the magnitude of the WuhanVirus19 breakout. No less than the President of the United States has alluded to in this direction.

COVIND 19 the term being applied by the World Health Organisation is a misnomer and a subterfuge to spare China from global allegations of a massive cover-up and thereby in the process denying the world to put into place in good time counter-measures to combat what started as Wuhan Virus19 Epidemic in China but which China could not control. Nor did it inform the world of its amplication, scope and manifestation as to what rightly must be termed as "Wuhan Virus19 Pandemic".

China by its recent actions has further reinforced global perceptions after President Xi Jinping assumed the helm in China that it is not a responsible stakeholder in global stability and security. This severely dents China's reputation both as a Permanent Member of the UN Security Council and those according it a place of honour in world councils.

In 2020, a tipping point has been reached in terms of China's relations with the rest of the global community by sheer callousness in which China has handled and suppressed the outbreak of the Wuhan Virus19 Pandemic. Major Powers of the World and especially the United States and Major European Powers must lead a campaign to call China to account for inflicting on the world a calamity that is likely to surpass the total human lives lost and economic losses inflicted by World Wars I and II put together.

Case exists for an International Inspection team to be sent to China by the United Nations for a fact-finding mission. If United Nations could send a UN Inspection Teams to Iraq for inspection of likely nuclear weapons programs then why not to China to inspect BCW activities in Wuhan?

China can expectedly refuse such initiatives but then the global community needs to explore other alternatives to checkmate China's disruptive activities ranging from military adventurism, aggressive brinkmanship and coercion and scant regard for international norms and conventions.

Recently when the 5th Anniversary of the BCW Convention was celebrated leading countries like USA and India called for full implementation of the BCW Convention. China was noticeably silent on the subject and nothing has come to public notice.

It needs to be stated that the Major Powers with democratic systems need to come together to discuss measures to checkmate authoritarian Nations like China, Pakistan and North Korea from holding the World to ransom. Can the world afford a repeat in the 21st Century, a repeat of 20th Century World Wars horrors and destruction ? United States must lead the world in not letting the world to slip into Chamberlainian mindsets.

China has not helped its case of being an innocent victim of the Wuhan Virus19 epidemic because after being initially on the defensive for not disclosing to the World in time of this in November 2019 or so when Wuhan first got afflicted, China has now brazenly gone on the offensive levelling charges that it was the United States that introduced the virus in China at the Wuhan Military Games in November 2019 when a 300 strong US Military Contingent visited Wuhan for the Games.

China is also brazening it out by now indulging in "Mask Diplomacy "by shipping Masks and medical equipment" to afflicted countries in the poorer quarters of the globe.

Whether Wuhan Virus Pandemic was an inadvertent epidemic breakout from Wuhan or as a result of as some allege that it could be a spill over of BCW experiments gone wrong China, either way by its suppression of Wuhan Virus19 breakout can be charged with "Crimes against Humanity" going by prediction of millions of lives likely to be lost in addition to hundreds of thousands already lost and severe global economic breakdown.

The economic costs of China's suppression and fudging of facts are massive in terms of supply chains broken, stock markets crashing and shattered economies with massive unemployment in its wake. In fact, the Global Recession that is in the offing is being assessed as an unprecedented one surpassing the Great Depression of 1930s.
